

Time is Money

Imagine there is a bank that credits your account each morning with \$86,400. It carries over no balance from day to day. What would you do? Draw out every cent, of course!

Each of us has such a bank. It's name is time. Every morning it credits you with 86,400 seconds. Every night it writes off as lost whatever you have failed to invest in good purpose. It carries over no balance. It allows no overdraft.

Each day it opens a new account for you. Each day it burns the remains of the day. If you fail to use the day's deposit, the loss is yours. There is no going back. There is no drawing against tomorrow. You must live in the present on today's deposits. Invest it so as to get the utmost in health, happiness and success.

The clock is running. Make the most of today.
